Brief: INVESTORS

Book can make you rich

THE latest edition of the Australian best seller that has created over 2200 property millionaires is now on the shelves.

In *Property. Prosper. Retire*, investment expert Kevin Young explains the secrets of wealth creation and outlines his plan for everyday Australians to become wealthy too.

In an easy to follow format, the book has answered every question there is about property investing including financing, tips and traps and why property is a better strategy than shares.

Kevin has proven himself accurate with market predictions, foreseeing the US meltdown and the Australian share crash in March 2008.

In the book, Kevin said housing demand would continue to grow, based on the latest ABS data and population projections.

He explained how a shortage of up to 500,000 dwellings has led to the current housing affordability crisis and outlined his proposed solutions to this problem.

This man owns 200 properties worth over \$100,000,000.
